**WHAT** young person wouldn't be happy with a lovely room like this? Who wouldn't be proud of such a floor? And how practical it is! It can stand a tremendous amount of punishment — for it is built of long wearing, rugged Dominion Battleship Linoleum. And another reason is its other advantage, too. It is so easy to clean — it needs no costly reflooring. *Germs cannot live on it.* It was the floor that inspired the whole decorative scheme — even to the colourful wall pan-

els! Dominion Battle Linoleum — for it is with the floor you start when decorating a room — the floor is the keynote.

If you would like to give such a room for your child, get in touch with the floor covering department of your house furnishing store. Almost any design you have in mind can be reproduced faithfully — with Dominion Battleship Linoleum.

We keep in stock three beautiful and a perfect color line W.L.S. — D.M.S. — L.S. — and also black and white. Battleship can also come in the form of a tile. It is perfect.

## Willards Cost Less to Own

**because they last longer... crank faster  
... don't let you down**

"The cost of operating my car comes out of my commissions, so I keep pretty close track of my expenses."

"I've used a dozen different makes of batteries—and none of them gave me the extra miles and muscle of good, dependable service that I'm getting out of this Willard. It's been in this car for two years. It always starts me—regardless of the weather—and I haven't spent a cent for recharging. Maybe all this is just talk—but I don't think so."

"Its reasonable price was a surprise in the first place—and now I know from cold figures that Willards actually do cost less to own."

**Men's Own Reason Willards Cost Less to Own!**

Willard Batteries are noted from the factory as Willard's standard in every respect—then when Willard's dealer tests are kept close track. Regardless of when you buy your Willard, it is sure—guaranteed to give you the dependable, economical service that only a new battery can give.

## Good-bye Relief

By R. E. KNOWLES, Jr.

From relief in the city to communal independence on the land—such is the story of the settlers of King Ridge.

**S**OME twenty-five pilot carts of Tsimba are a little more known in King Shaka, people forward to what are showing, serving and helping to carry their own living with the dead. The number 250 men, women and children, consisting of large-size families, the last they are needed on amounts to about 250 acres. The cost of establishing them on a lot has been slightly more than \$100.

Twenty of these dwellings have successfully completed a year's probationary period and each of them is now tenanted in a temporary house built on two acres of pasture land within a few miles of a local seat of life insurance and of the university from which the students are recruited. A third house now ready for use at these points borders one on each side, today it is not only supplying Chatterbox but it, among others, houses and runs of the principal — the money spent in education, that is.

Are you happier here than driving into the city? The writer asked a number of these people. Some typical answers were:

"I never want to see the day as a trial to me again,"  
"It's good - just like starting life all over!"  
"My kids used to be such little bums - Lads in blue  
now" pointing to three shiny-sharked, shiny, smiling  
preschoolers.  
"I bet if I cut hold my head high now in the first  
time in your house."

**Further McGary**

THE MAN responsible for the ethical, academic, physical and spiritual that Bono people have enjoyed most is a Boston College person. Eric Parker F.J. McGary. Here he came to undertake the scheme he has still in his own words.

Further McGary is a thoughtful man, short and stocky and somewhat balding, with the glasses. One time at the

— The planted part produces and captures the energy in the hill there was enough to reach such coffee for the winter and all what was left over for 1952. This money was directed toward the blue bananas so that when they came all sales in September they had enough vegetables and cash to see them through the winter.

Next spring, I brought Helen over to visit me. I had to move more money by means of subscription in order to buy more land and build more houses. This spring (1836) Mother Ellen Gooden came and said we were going along later in the summer. That summer more land and houses, which can only be obtained by more money. But I've been able to raise it—probably because I've saved God's.

It costs about \$100, Father McCarty estimates, to outfit each family on the river with its necessary items, foodstuffs and instruments, whereas it costs more than \$200 a year to keep the average family on shore. The families which have been at Fort Snelling for two years or longer, if they are present on the steamer and have stored a supply, tend to be the recipients of the principle.

### Participants were Pooled

**THE SUCCESS** of the King Ridge venture, in contrast with the failure of many similar schemes, is due, in the writer's opinion, to two factors—the careful selection of property on which to build, and the year's preliminary yachting

Patrice McGoey, himself, has chosen the nation's first handful of applicants—not on any basis of socioeconomic, but solely on that of moral character and physical fitness. He prefers middle-aged men, partly because they are more likely to be proven with a modest wage, that is, without much, and partly because they have the chance of being undisturbed by when volatility strikes, says McGoey.

The 1947 production goes into family drama to learn the elements of harmony and shows whether they are worth the effort. No word they have completed the period in the 1940s around in them. They start to work under the eye of an experienced leader. In short, that's what to do and how to do it. It is the only film of the year, all the members of the family have shown that they possess the same qualities. They are all their talents, their love.

During production the artists work just like on a commercial job so that they may have

## SERVE FISH OFTEN

*Easy to Digest . . . Fish is a Healthy and Finely Flavored Food . . . Capable of Limitless Variety in Serving*

THERE is not a woman in Canada today who has not occasionally found herself at the end of her tether . . . wondering what on earth to serve for the next meal. Yet if she thought more often of Fish, her problems would be over.

Fish extends your resources a hundred-fold. Fish equals other varieties of food in nourishment . . . indeed, has additional elements for good health and balance . . . and yet is more easily digested . . . more varied in flavor . . . more adapted to countless delicious and economical recipes.

Get your fish from sea or lake . . . get it in shell form . . . whichever way you prefer it, you and your family will benefit from its

richness in proteins . . . its valuable iodine content . . . its vitamins and mineral salts . . . and its blood-enriching ability.

And health is merely one advantage of Fish. There is the delight of firm, delicate meat . . . the melting, inimitable flavor that varies with every kind of Fish you buy . . . the perfect condition in which you can get every form of Fish . . . whether fresh, frozen, canned, pickled, smoked or dried.

Thousands of people in other countries prefer and enjoy Canadian Fish . . . for over 80% of Canada's Fish Tonnage is exported. Serve Canadian Fish more often in your home. Remember, "Any Day is Fish Day" . . . with this healthful, easily digested and flavorful food.

### — and here's the RECIPE

#### OVEN COOKED FILLETS OF FISH

(Cod, halibut, haddock, whitefish, sole, etc., may be used.)

The fish may be cut into pieces of a suitable size for serving or the fillets may be left whole. Dip each piece into salted milk (one-half tablespoonful of salt to one-half cupful of whole milk or diluted evaporated milk), toss into a pan of sifted dry bread crumbs, coat thoroughly and place in a well oiled baking pan. Sprinkle with oil and place in a very hot oven — 500 deg. Fahr. Bake until the fish is tender and the crumbs nicely browned (about 10 minutes). Serve with Tomato, Hollandaise, Caper or Tartar Sauce.

#### BROILED SALMON STEAKS

Have the salmon steaks cut at least 1 inch thick. Sprinkle with salt and coat with cooking oil or melted butter. Have the broiler very hot and oil it to prevent the fish from sticking. Cook under high heat, turning until nicely browned and tender (about 15 to 20 minutes depending on the thickness). Serve with Maitre d'Hôtel Butter or with Lemon sections.
